LEMBAR PENGESAHAN

APLIKASI PENGENALAN WAJAH MENGGUNAKAN METODE EIGENFACE

TUGAS AKHIR

Sebagai Persyaratan Guna Meraih Gelar Sarjana Strata 1
Teknik Informatika Universitas Muhammadiyah Malang

Disusun Oleh:
Idaman Noor Abadi
NIM : 06560285

Tugas Akhir ini telah diuji dan dinyatakan lulus melalui sidang majelis
pada tanggal 26-7-2013

Menyetujui,

Penguji I
Agus Eko M

Penguji II
Zamah Sari

Mengetahui,

Ketua Jurusan Teknik Informatika,

Eko Budi Cahyono, S.Kom.,M.T
NIP. 108.9504.0330
KATA PENGANTAR

Dengan memanjatkan puji syukur kehadirat Allah subhanahu wa ta’ala atas limpahan rahmat dan hidayah-Nya sehingga penulis dapat menyelesaikan tugas akhir yang berjudul :

“APLIKASI PENGENALAN WAJAH MENGGUNAKAN METODE EIGENFACE “

Malang, 31 Juli 2013

Idaman Noor Abadi
DAFTAR ISI

LEMBAR PERSETUJUAN ................................................................. i
LEMBAR PENGESAHAN .............................................................. ii
LEMBAR PERNYATAAN .............................................................. iii
ABSTRAK ....................................................................................... iv
ABSRACT .......................................................................................... v
LEMBAR PERSEMAHAN ............................................................... vi
KATA PENGANTAR ........................................................................ vii
DAFTAR ISI ....................................................................................... viii
DAFTAR GAMBAR ........................................................................... ix
DAFTAR TABEL ................................................................................ x

BAB I. PENDAHULUAN
1.1. Latar Belakang Masalah ........................................................... 1
1.2. Rumusan Masalah ................................................................. 2
1.3. Batasan Masalah ................................................................. 2
1.4. Tujuan ..................................................................................... 2
1.5. Metodologi ............................................................................. 2

BAB II. LANDASAN TEORI
2.1. Pengertian Citra ................................................................. 4
2.1.1. Citra Optik ........................................................................... 4
2.1.2. Citra Analog ........................................................................... 4
2.1.3. Citra Digital ........................................................................ 4
2.1.4. Format File Citra ............................................................... 6
2.2. Metode Pengenalan Wajah .................................................. 7
2.2.1. Proses Umum Pengenalan Wajah ........................................ 8
2.3. Eigenface ............................................................................... 9
2.3.1. Pengertian Eigenface PCA ............................................... 9
2.3.2. Prinsip Eigenface ............................................................ 10
2.3.3. Perhitungan Eigenface .................................................... 12
BAB III. ANALISA DAN PERANCANGAN

3.1. Model Analisa Komponen Sistem ........................................ 21
3.2. Konfigurasi Hardware .................................................... 22
3.3. Perancangan Sistem ....................................................... 23
   3.3.1. Pemrosesan Awal ............................................. 25
   3.3.2. Perhitungan Proses Pengenalan Wajah ................. 27

BAB IV. IMPLEMENTASI DAN PENGUJIAN

4.1. Implementasi Program .................................................. 33
   4.1.1. Form Menu Utama ........................................... 33
   4.1.2. Form Ambil Wajah ........................................... 34
   4.1.3. Form Target ..................................................... 35
   4.1.4. Form Proses Eigenface .................................... 36
4.2. Pengujiann Program .................................................... 37
   4.2.1. Pengujiann Untuk Capture Wajah ...................... 37
   4.2.2. Proses Penyimpanan Data .................................. 37
   4.2.3. Proses Eigenface ............................................ 38
   4.2.4. Hasil Proses Eigenface .................................... 38
   4.2.5. Tabel Pengujian Hasil ..................................... 39

BAB V. PENUTUP

5.1 Kesimpulan ................................................................. 41
5.2 Saran ................................................................. 41
