ABSTRAKSI

Mooching (Mengemis) with frequent to child also colour metropoliss face in Indonesia. In Jakarta, many seen beggar in public road and looked to be by bringing baby as trik braze and require to feel pity for. Even, our television also have [done/conducted] reportase about how all that mooching [doing/conducting] its his [him/it] [so that/to be] looking more braze. There is making hurt made in, there is also which pretend handicap. Baby for apparatus to cadge even also there is its rental. Really inhuman. A newspaper have expressed that rent expenses one baby people of perhari to be invited to to cadge is Rp15.000 until Rp25.000. So, Iodger have to provide food and beverage to the the balita. But, seldom there [is] beggar giving milk to this rental baby. Nothing other than merely irrigate just sweet tea. Result of from cadging perhari, it is said like expressed by television, month;moon moment of ramadhan its production leap sharply. Many people which is competition give alms. No wonder if money of Rp100.000 sure perhari have on-hand.

Fact above, big possibility also happened in Unlucky Town which in this context is around University campus of Muhammadiyah Unlucky, because economics difference affecting at kamiskinan, unemployment, and is situated behind of frequent society colour news in this town. Refer at background above, hence this research internal issue formula is: child transaction pattern of old fellow to Iodger for the activity of mooching in campus environment of III University of Muhammadiyah Unlucky and target of rent of child in mooching activity in campus environment of III University of Muhammadiyah Unlucky.

This research will use approach qualitative with type research of case study (study case).

Conclusion of this research is, first, mooching rent child in [doing/conducting] this activity because of by existence of difference of earnings [among/between] [doing/conducting] this activity with renting child (more earnings), because if bringing moppet, one who pass will feel more pity and pity [is] so that moved to give money; both, activity rent of child for the activity of this mooching in causing by poorness factor and limitation of accomplishment of kebutuhan of base live in theory context accomplishment of economic rights, culture and social; third, mooching activity with renting this child also related to its theory of him of Erving Goffman, where perpetrator practice management impression (impressive management) as medium so that seen very is requiring of aid with all drama which he play the part of.
