ABSTRACT

The research is based on the theory of Michael Sherraden of the theory of poverty that is a theory that focuses on individual behavior is a theory about the choices, expectations, attitudes, and motivation. Poverty is a level of life under the standard of living needs, and the completion of all the problems that one of them with the empowerment of the government through the Community Development Program of Work.

The research proves that Social Rehabilitation Unit bum And Beggars Ponorogo as a social rehabilitation unit executing an essential role in empowering communities through programs of community work. Implementation of the Community Development Program of Work in the empowerment of Poor Families Social Rehabilitation Unit bum and Beggars Ponorogo implemented in a systematic and planned. In the exercise of the empowerment program for the poor, had previously been selected for UPT in advance and provide program services sesuau skills with the ability or interest in coaching the participants. It aims to coaching skills in berkan more readily accepted by the participants guidance and can be carried maksimaldalam a short time, so that can be ascertained between the institution and the Unit as a coach coaching the participants as people who do not mind giving the material to follow in a short time pembinaa.

The concept of empowerment of the poor and abandoned an effort to build their capacity. Effort - an effort in empowering the poor and helpless, is directed at achieving welfare for the poor and displaced families through the social ministry of Social Rehabilitation Unit and the Beggar city Ponorogo bum like guidance skills, provision of capital to start a business, as well as meditation guidance, interest and aptitude, personality pendalama , experience, physically, mentally and
socially. So that the participants after leaving the UPT can be independent, to be better and show the correct attitude and behavior so that they can put themselves wherever they are.
