Existence BKM represent one matter becoming priority in is powered of impecunious society through PNPM Mandiri. Role of BKM expected to earn more improved and created by new innovation improve level live impecunious people. It is of course, existence of this program need strong law umbrella in the form of By Law and also Decision of Regent to be more directional and looked after. Mechanism development of society participation through sub-district facility, that is local government invite society to involve actively in socializing BKM. But that way after all enableness conducted, just social difference remain to be happened, that is poorness. For the reason, poorness overcoming or at least poorness meminimalisir become one of the principal focus development of government. During the time strategy conducted by government of Malang Town is with forming one institute entangling various side. The institute so called BKM. BKM founded in country side storey; level / sub-district which target of the core important to overcome poorness of local society. To increase efftiveness overcoming of poorness and creation employment, governmental launch Program National Enableness of Society (PNPM Mandiri) start year 2007 re-formulated self Supporting by PNPM mechanism strive overcoming of poorness entangling society element, start from planning phase, execution, till evaluation and monitoring.

This research is conducted by using approach qualitative with descriptive method. Technique data collecting through: Observation and interview and also docentification. After done by its inspection of him, data analysed by presentation of data is at the same time analised and withdrawal of conclusion.

From result of obtained data (1). Role BKM in execution of program of PNPM Mandiri in Sub-District Mojolangu District of executed Malang Lowokwaru Town two program type that is physical program and giving of fund turning around where in the plan have passed some planning phase that is aspiration network, deliberation development of sub-district in sub-district of Mojolangu through to negotiate citizen and approval of proposal raised by every RW in region sub-district of Mojolangu by paying attention the condition of which really insist on to be assisted by way of evaluation at vinicity environment and society. Fund budgeted by PNPM Mandiri of central government give relief fund allocation stimulan equal to Rp. 250 million, And report evaluated auditor have been delivered to center. But with the anggara still felt by the existence of lacking in aid program and development of sub-district environment. Finally BKM set mind on giving of loan by giving some conditions and do survey. BKM have strategy which is best with implementasion training skill of management, managing small industry and give capital loan to impecunious society to be can solve and overcome its own problem. Therefore
BKM socialization priority for the quickening of activity PNPM Mandiri coordinated by Team Controller of PNPM Mandiri which cover for example policy of public and development program, stipulating of location, communication strategy, system development of information, and also evaluation and monitoring. (2) Constraint of BKM in execution of program of PNPM Mandiri in sub-district Mojolangu Distric of Malang Lowokwaru Town during the time do not facilities and basic facilities it and lack of fund which in special allocation to support process construction of BKM and awareness of society exist in Sub-District of Mojolangu less so comprehend with existence of program of PNPM. Fluency of PNPM Mandiri very is base on awareness of society, like performing a routine fee taken as supporter medium to fluency of PNPM Mandiri. Execution of this program it is true have been planned, like sharing holder order. Division of result, that is profit 70% entering receiver of benefit (impecunious citizen) and which is 30% entering cash of BKM and this have been agreed on by society Sub-District of Mojolangu.
