Interview Result

A: Interviewer     B: Interviewee

Initial Name: A.P - Translation

A: Hi my name is Zulfa Imawanti. So I would like to ask you some questions related to my thesis. It’s about male students’ perception toward EYL course. First, what comes to your mind when you heard about EYL?

B: for me, it is complicated and difficult course. Because you guys have to manage and teach children in a fun way to make them interested in the lesson. Children also need more time to understand the lesson. That’s why teaching children need to be patient. I appreciate whoever taking EYL course because it’s not easy to do that. I myself admit that I’m not good at teaching children and basically I don’t like facing children.

A: What makes you think like that?

B: You know that facing children is like something that we need to be patient, children is often, you know, they can make us sometimes angry, but in the other occasion they can make us happy, it is like confusing situation for me. So that’s why, I don’t think I can do it.

A: Do you have experience teaching children?

B: As I said before, I don’t have any experience.

A: Is your plan for your future career related to the teaching?

B: I guess no. I don’t have any plan to be a teacher. Because you know that, for me teaching is hard, maybe I can try another thing that is suitable for me.

A: Does another factor because of the teacher salary is low?

B: Yap. As we know, it happen that the teacher salary is classified in to some level like in Indonesia we call it as honorer, golongan 1, etc. It has some classification. So I guess not many people can be rich the level of the teacher.

A: There is a previous study state that men who express desire to work with children are stereotyped as pedophile or child abuser. Do you think that male who teach young children is pedophile?

B: I don’t think so. Because the purpose is only teaching. It’s not about the other thing. If the teacher purely wanted to teach, there is nothing can we call about children abuse. It’s purely about teaching.

A: Do you think that EYL course need more male students?

B: Yap, probably. Sometimes, man need to understand about children, understand how to teach children, and how to take care about children.

A: Why do you think that EYL course is unattractive?

B: The main reason EYL is not really attract for me because I don’t really like facing children.
Initial name: MRF - Translation

A: Hi my name is Zulfa Imawanti. So I would like to ask you some questions related to my thesis. It’s about male students’ perception toward EYL course. First, what comes to your mind when you heard about EYL?

B: What comes to my mind when I heard the word EYL course is, I picture a bounce of children and a bounce of young teachers. They are playing, but actually they are learning.

A: What makes you think like that?

B: Because the name of English for Young Learner. I can see what you guys did in every Saturday and Sunday, so it’s quite fun I guess.

A: Based on your answer in the questionnaire, you said you have experience teaching with children. When and who did you teach?

B: One of my experience when I had life skill education, the second is probably when I was in my home town, so we created some activities, then there were some children involved in that activity, we were like playing but we were learning.

A: Is your plan for your future career related to the teaching?

B: Yes, absolutely yes. Probably I will prefer to teach senior level.

A: Why do you not take the low grade like elementary level? Is it because of the salary low?

B: I don’t think it’s because of the salary, like I told you before that I kinda don’t like children, I think teaching the higher level it will be great.

A: There is a previous study state that men who express desire to work with children are stereotyped as pedophile or child abuser. Do you think that male who teach young children is pedophile?

B: I’m not sure whether that’s true or not. I think it’s more like personal perception, but in my opinion I’m not going to think like that, because you know everybody has their own perspective on something. I don’t agree with that.

A: Do you think that EYL course is only suitable for woman?

B: Well, I’m not say that EYL course is only suitable for women, but women are great on it.

A: Do you think that EYL course need more male students?

B: I guess so, I think EYL course need more male teacher/ participants, because to create another kind of environment when teaching English for young children.

A: Why you didn’t take EYL?

B: I do not like children, but not hate them. But just kinda. The second one is that I like translation the most, so I choose translation.

A: Does society support you to join EYL course?

B: My male friends, they kinda do not support me, almost all of them took translation and BE, when I wanted to take EYL course then some kinda like I’m the only one who will take it, they are like make fun on it.
**Initial name: WW - Business English**

A: Hi my name is Zulfa Imawanti. So I would like to ask you some questions related to my thesis. It’s about male students’ perception toward EYL course. First, what comes to your mind when you heard about EYL?

B: In my opinion, EYL course is a challenging and fun course. Teaching young children is really fun, because we just teach them the basic skill, and sometimes we don’t need to be confused about the higher level of the English speaking skill. So teach EYL student, for me I’m happy. So teaching young children is easier than the higher one. Actually I wanted to take EYL course because I feel it’s my field and I like children, I am more comfortable joking with children rather than with adults. But I didn’t choose EYL course because my senior said that the majority students who join EYL course is female. I ever told by one of the lecturer that if you want to join EYL course it’s Ok, but all of the students are female. So, I don’t want if one class there is no male.

A: What makes you think like that?

B: In my family, all of my siblings, they are all being teacher. So I usually follow them to go to the school, see how they teach to the children, because my elder sister she teach in the elementary school, what makes me feel like that it is because when they come in to the classroom, when my sister teach to the children, they usually like to play more than learn. So I like that way.

A: Based on your answer in the questionnaire, you answer strongly agree that EYL course is one of your preferences in choosing EYL course, so why you did not take EYL course?

B: Actually I would like you take another part of being a teacher. Actually after I have graduated from university I will be a teacher. But I would like to find another experience so I took BE.

A: Do you have any experience teaching young children?

B: Yeah, in my hometown. But I teach them not English lesson, I teach the Arabic language and how to read Quran, how to understand the meaning of the Alquran. The age of the children is 3 years, kindergarten level and elementary level.

A: Is your plan for your future career related to the teaching?

B: Yes, I have planning for teaching, but in the Junior or Senior high school level. But if I am offered to teach young children, like in elementary school I will take it.

A: Why do you prefer in Junior or senior level? Is it because of teaching in low grade like elementary school the salary low?

B: For me, low salary for teacher is not the important point. Because we have to find the solution to find the money from the other way, not from being a teacher. Back then, when I learned in KWU class, the lecturer told us that if you want to be a teacher, don’t think about salary, because you will not be rich. But you can be rich it’s because of Rizki from Allah

A: There is a previous study state that men who express desire to work with children are stereotyped as pedophile or child abuser. Do you think that male who teach young children is pedophile?
B: Not really, because it depends on the characteristic of each person. It can be that female can teach children better than male. For me, I think male also can teach the children better than the female. Actually we can keep our emotion like we don’t easily get angry to the students. But female when they were in the period, sometimes my experience, they are easier getting angry to the students, cannot maintenance the emotional.

A: Do you think that EYL course need more male students?

B: I think it should increase more male to tech EYL students because male work as hard as female and creative as well. But I think the total number that can be decreased. I think it is because the other courses more interesting, it’s like BE, they have to do the internship in the hotel, so they will get more experience, but EYL maybe we can teach or take that experience from the school or from the other place. So that’s why we avoid to take it.

A: Does society support you to be a teacher?

B: Yes, everyone support me to be a teacher. Whatever I want to be.

**Initial name: WA – Business English**

A: Hi my name is Zulfa Imawanti. So I would like to ask you some questions related to my thesis. It’s about male students’ perception toward EYL course. First, what comes to your mind when you heard about EYL?

B: It’s about teaching English for children, maybe for kindergarten level. It’s like make it for fun for teaching English, by making room become good situation for teach them.

A: Do you have experience teaching young children?

B: Yes, actually not English but another subject like Arabic subject. The level that I teach in kindergarten level, around 3 until six years old.

A: Why you do not choose EYL?

B: because my purpose, my future is not actually for teaching children, maybe just like teaching teenager than children.

A: Is your plan for your future career related to the teaching?

B: my dream is teaching adult in university/college. But I prefer teaching in junior or senior level, but not young children.

A: You agree that EYL course is unattractive. Can you explain more?

B: Yes. Because when people teach young children, they will take care of the children so much than teaching. That’s my opinion. For me, for example, I learn much about English, but I teach them only a little bit for student, we absolutely cannot teach them directly much of knowledge that we got before. Like only A B C .. that word word… So for me, how if I learn more and I can separate, I can take out all my knowledge for my students if I become a teacher, like that.

A: Do you think that EYL course is only suitable for woman?

B: I disagree with that statement, because as you know that, men also require, but I don’t know maybe women are better than men, or men better than women. It depends on, it depends on that people. Not different on gender. Ya you know that, maybe women are
better than boy, because of is that like mum who always take care, can take care much of children. So you don’t think that men cannot do that. Sometimes men can do that too even more than women.

A: What do you think about EYL course only have a few male?

B: I think it’s because of the culture. For boy they have to work, some work like work hard not only work like teaching. For me, in my opinion, I can say that every person like men and women, ya we are equal. We can do everything the same. Just the people outside do it become culture, become something like, hey for boy you have to do like work hard, like business, for girl you have to work, like teacher for take care, housewife, like that. Just our world. I think that.

A: There is a previous study state that men who express desire to work with children are stereotyped as pedophile or child abuser. Do you think that male who teach young children is pedophile?

B: I don’t think so. Because as you know that for sexual hormone of men higher than women, maybe sometimes, there is much of news told that right, it depends on people. I can’t say that men always do that. No. I think it’s really bad. I don’t agree with that statement. If men or women want to become the teacher, they have to pass something like psychology test, and everything like the test first before become a teacher, not only just directly become a teacher, there are many test. But if about stereotyped like that, I don’t think so that men always do that, maybe women also do that.

Initial name: WDP - English for Young Learner

A: Hi my name is Zulfa Imawanti. So I would like to ask you some questions related to my thesis. It’s about male students’ perception toward EYL course. First, what comes to your mind when you heard about EYL?

B: Something fun. Teaching young children, I think it’s fun. Because I ever saw EYL course activities. So that’s why I was interested to join EYL course.

A: How do you feel when you join in EYL class?

B: I felt uncomfortable and shame because I was the only one male in class. But now feel a bit comfortable because I have some male friends. Actually EYL course is fun, but only one problem, I am as a man, feel my prestige down when I was asked to sing and dance in front of the class.

A: Does society support you to join EYL course?

B: No one support me. I join EYL course because of my own willingness.

A: There is a previous study state that men who express desire to work with children are stereotyped as pedophile or child abuser. Do you think that male who teach young children is pedophile?

B: Disagree. It is not true. Many male teachers teach in Elementary school.

A: Do you think that EYL course is only suitable for woman?

B: I don’t think so. Because in Elementary schools also have many male teachers.
A: Do you think that EYL course need more male students?
B: I think it is needed. But if possible do not have singing and dancing. Because actually teaching young children is fun.
A: Is your plan for your future career related to the teaching?
B: I am not sure. But if I get a job for teaching, I will teach in Elementary or Junior level, because still basic or easy.
A: Do you think that teaching young children is easy?
B: Ya sometimes easy, sometimes difficult. The difficult one is maybe manage the children.
