STUDENT PERCEPTION OF PLAYING ONLINE RPGS TO IMPROVE VOCABULARY MASTERY

ABSTRACT

English proficiency is crucial for effective communication, yet Indonesian students often face challenges in using English due to limited vocabulary and classroom-only learning approaches. Online games, particularly story-driven RPGs, offer an engaging alternative for enhancing vocabulary through immersive, context-rich environments. This study aims to evaluate the impact of story-driven online RPGs on students' vocabulary mastery. Using a descriptive quantitative approach, data were collected through an online questionnaire and vocabulary test distributed to purposively sampled English Department students at Muhammadiyah Malang University who play RPGs regularly, specifically 22 students from the Introduction to Literature class. The questionnaire was adapted from validated instruments and employed a 4-point Likert scale to assess perceptions and engagement. Descriptive statistical analysis was used to interpret the data, highlighting students' insights into the effectiveness of RPGs for vocabulary acquisition. Findings reveal that story-driven RPGs provide a unique and dynamic linguistic environment that enhances vocabulary learning compared to other game genres, such as MOBAs. Students reported greater enjoyment and retention due to the narrative complexity and varied language exposure in RPGs. This study concludes that story-driven RPGs are a valuable tool for integrating language learning into students' daily lives, promoting vocabulary acquisition in an engaging and immersive way.

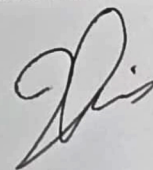

Key Words: *Online Games, RPGs, Students' Perception, Vocabulary Mastery*

ACKNOWLEDGEMENT

I would like to express my heartfelt gratitude to my advisor, Fardini Sabilah, Dr., S.Pd., M.Pd., for her unwavering support, patience, and invaluable guidance throughout the process of completing this thesis. Her profound knowledge, constructive feedback, and consistent encouragement have been instrumental in shaping the direction and quality of this work. I deeply appreciate her dedication and the time she has devoted to mentoring me, even amidst her many other responsibilities.

Furthermore, I extend my sincere appreciation to Universitas Muhammadiyah Malang for providing a supportive academic environment, as well as access to the resources and facilities that were essential to the completion of this thesis. The institution's commitment to fostering academic excellence and innovation has greatly inspired and motivated me during my studies. Without the contributions of both my advisor and the institution, this work would not have been possible.
