SCOPE

The International Journal of Evaluation and Research in Education (IJERE) is an interdisciplinary publication of original research and writing on education which publishes papers to international audiences of educational researchers. The IJERE aims to provide a forum for scholarly understanding of the field of education and plays an important role in promoting the process that accumulated knowledge, values, and skills are transmitted from one generation to another; and to make methods and contents of evaluation and research in education available to teachers, administrators and research workers. The journal encompasses a variety of topics, including child development, curriculum, reading comprehension, philosophies of education and educational approaches, etc.

Good day,

My name is Sugiarti from Universitas Muhammadiyah Malang. A few months ago I made a submission in **IJERE** and already received a decision regarding our submission. However, we can not find the reviewers' comments in our article. We already checked the OJS and downloaded the file from the review section, but as I mentioned before, we cannot find the comment. Would you mind helping us regarding this matter? We will revise our manuscript as soon as possible once we get hold of the reviewers' comment. Looking forward to hearing from you.

The following message is being delivered on behalf of International Journal of Evaluation and Research in Education (**IJERE**).

-- Paper ID#
-- Authors must strictly follow the guidelines for authors at
<http://iaescore.com/gfa/ijere.docx>
-- -----

Dear Prof/Dr/Mr/Mrs: Dr. M.Si sugiarti sugiarti,

We have reached a decision regarding your submission entitled "Developing A Growth Mindset in Education: A Bibliometric Analysis and Its Challenge During Pandemic" to International Journal of Evaluation and Research in Education (**IJERE**), a SCOPUS (<https://www.scopus.com/sourceid/21100934092>) and ERIC indexed journal (<https://bit.ly/2E18hDj>).

Our decision is to revisions required.
Please prepare your revised paper (in MS Word or LATEX file format) adheres every detail of the guide of authors (<https://iaescore.com/gfa/ijere.docx> for MS Word file format, or <https://iaescore.com/gfa/ijere.rar> for LATEX file format), and check it for spelling/grammatical mistakes.

The goal of your revised paper is to describe novel technical results.

A high-quality paper MUST has:

- (1) a clear statement of the problem the paper is addressing --> explain in "Introduction" section
- (2) the proposed solution(s)/method(s)/approach(es)/framework(s)
- (3) results achieved. It describes clearly what has been done before on the problem, and what is new.

Please submit your revised paper within 6 weeks.

I look forward for hearing from you

Thank you

Best Regards,
Dr. Lina Handayani

=====

IMPORTANT!!

=====

For ORIGINAL/RESEARCH PAPER: the paper should be presented with IMRaD model:

1. Introduction
2. Research Method
3. Results and Discussion
4. Conclusion.

We will usually expect a minimum of 30 references primarily to journal papers. Citations of textbooks should be used very rarely and citations to web pages should be avoided. All cited papers must be referenced within the body text of the manuscript.

For REVIEW PAPER: the paper should present a critical and constructive analysis of existing published literature in a field, through summary, classification, analysis and comparison. The function and goal of the review paper is:

- 1) to organize literature;
- 2) to evaluate literature;
- 3) to identify patterns and trends in the literature;
- 4) to synthesize literature; or
- 5) to identify research gaps and recommend new research areas.

The structure of a review paper includes:

1. Title – in this case does not indicate that it is a review article.
2. Abstract – includes a description of subjects covered.
3. Introduction includes a description of context (paragraph 1-3), motivation for review (paragraph 4, sentence 1) and defines the focus (paragraph 4, sentences 2-3)
4. Body – structured by headings and subheadings
5. Conclusion – states the implications of the findings and identifies possible new research fields

Number of minimum references for review paper is 50 references (included minimum 40 recently journal articles).

In preparing your revised paper, you should pay attention to:

1. Please ensure that: all references have been cited in your text; Each citation should be written in the order of appearance in the text; The citations must be presented in numbering and CITATION ORDER is SEQUENTIAL [1], [2], [3], [4],

Please download & study our published papers for your references:

- <http://ijere.iaescore.com>
- <http://journal.uad.ac.id/index.php/edulearn>
- <http://ijece.iaescore.com>
- <http://ijeecs.iaescore.com>

(Please use "Search" menu under "JOURNAL CONTENT" menu in right side of the site)

2 An Introduction should contain the following three (3) parts:

- Background: Authors have to make clear what the context is. Ideally, authors should give an idea of the state-of-the art of the field the report is about.
- The Problem: If there was no problem, there would be no reason for writing a manuscript, and definitely no reason for reading it. So, please tell readers why they should proceed reading. Experience shows that for this part a few lines are often sufficient.
- The Proposed Solution: Now and only now! - authors may outline the contribution of the manuscript. Here authors have to make sure readers point out what are the novel aspects of authors work. Authors should place the paper in proper context by citing relevant papers. At least, 5 references (recently journal articles) are cited in this section.

3. Results and discussion section: The presentation of results should be simple and straightforward in style. This section report the most important findings, including results of statistical analyses as appropriate. You should present the comparison between performance of your approach and other researches. Results given in figures should not be repeated in tables. It is very important to prove that your manuscript has a significant value and not trivial.

The following template should be used for responses to reviewers:

I would like to thank the reviewers for their insightful feedback. All comments from Reviewer 1 are highlighted in yellow, those from Reviewer 2 are highlighted in red, and those from Reviewer 3 are highlighted in green.

Reviewer 1

Comment 1: There are some references that are not required.

Response: We thoroughly updated our references; 5 references were eliminated, and two were replaced by more recent publications.

Comment 2: The presentation of Figures 2 and 3 should be improved.

Response: The necessary adjustments have been made.

Comment 3: Equation (2) seems to be incorrect.

Response: Equation (2) is correct. This can be proven as follows:...

In order to clarify equation 9 in the manuscript, the following remarks have been added... etc.

All changes for reviewer 1 are highlighted in yellow in the main text.

Reviewer 2

Comment 1:

Response:

Comment 2:

Response:

Comment 3:

Response:

All changes for reviewer 2 are highlighted in red in the main text.

Etc.

Such a document clarifies everything and will aid the reviewers in evaluating the work fast.

When providing your amended primary document files, you must also upload your corrections statement. Before your manuscript, the declaration of revisions should appear.

The topic is interesting and deserves attention from scholars and practitioners in the discipline of education. I commend you for starting an inquiry into the growth mindset. The study started with an impressive introduction. From an overall perspective, the research problem of this paper has practical and academic value. However, it still has several issues. My recommendation for the current version of the paper is minor revision. The authors may consider and respond the following comments: I understand that the authors tried to contribute a very emergence discussion. I believe that this research has significant implications. However, it is unclear about the conclusion part; simultaneously, a separate theoretical/ practical implication section may broaden the scope of the study. The conclusion and policy recommendation sections should be more concise and summarize the innovative points of the paper.

If you are interested in pursuing the topic, I suggest you address the mentioned issues. Further, grammatical errors need to be cleaned up in the paper to meet the journal standards. The authors may consider professional copy-editing to ensure formal scientific writing.

-
- Ref. from Journal article must be completed with vol., issue, pages, DOI
 - Update references in recent 10 years
 - Cite references in IEEE Style, not APA Style
 - Write biographies of authors after ref. section
 - Complete the ORCID ID for each author in Biographies section.
 - Make sure that each paragraph at least contained three sentences.
 - Each reference must be completed with DOI and can be traced online.
 - Similarity should be no more than 20 percent.
 - State the research funding and its contract number, if any in the acknowledgment section

Dear Prof/Dr/Mr/Mrs: Dr. M.Si sugiarti sugiarti,

It is my great pleasure to inform you that your paper entitled "Developing A Growth Mindset in Education: A Bibliometric Analysis and Its Challenge During Pandemic" is conditionally ACCEPTED and will be published on the International Journal of Evaluation and Research in Education ([IJERE](#)), a SCOPUS (<https://www.scopus.com/sourceid/21100934092>, SJR: 0.308 (SJR Q3), CiteScore: 1.3 and SNIP: 0.582) and ERIC (<https://bit.ly/2EI8hDj>) indexed journal. Congratulations!

Please prepare your final camera-ready paper (in MS Word or LATEX file format) adheres to every detail of the guide of authors (MS Word: <http://iaescore.com/gfa/ijere.docx>, or <http://iaescore.com/gfa/ijere.rar> for LATEX file format), and check it for spelling/grammatical mistakes. Then you should upload your final paper to our online system (as "author version" under our decision, NOT as new submission).

You should submit your camera-ready paper (along similarity report by iThenticate/Turnitin that less than 20%, and with your payment receipt) within 6 weeks.

I look forward to hearing from you.

Thank you

Best Regards,
Dr. Lina Handayani

URGENT!! Pay attention to the following instructions carefully! YOU MUST DO!!

1). PLEASE ADHERE STRICTLY THE GUIDE OF AUTHORS

<http://iaescore.com/gfa/ijere.docx> (Use this file as your paper template!!)

and pay attention to the checklist for preparing your FINAL paper for publication:

<http://ijere.iaescore.com/index.php/IJERE/about/editorialPolicies#custom-2>

2). It is mandatory to present your final paper according to "IMRADC style" format, i.e.:

1. INTRODUCTION

2. The Proposed Method/Framework/Procedure specifically designed

(optional)

3. METHOD

4. RESULTS AND DISCUSSION

5. CONCLUSION

See <http://iaescore.com/gfa/ijere.docx>

3). Add biographies of authors as our template (include links to the 4 authors' profiles, do not delete any icons in the template).

--> Provide links for all authors to the 4 icons (Scholar, Scopus, Publons and ORCID). It is mandatory!! See <http://iaescore.com/gfa/ijere.docx>

4). Use different PATTERNS for presenting different results in your figures/graphics (instead of different colors). It is mandatory!! See

<http://iaescore.com/gfa/ijere.docx>

5). Please ensure that all references have been cited in your text. Use a tool such as EndNote, Mendeley, or Zotero for reference management and formatting, and choose IEEE style. Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3], [4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5]. It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list.

Examples of in-text citations:

This theory was first put forward in 1970 [9].

Zadeh [10] has argued that ...

Several recent studies [7], [9], [11]-[15] have suggested that....

... end of the line for my research [16].

6). Please present all references as complete as possible and use IEEE style (include information of DOIs, volume, number, pages, etc). If it is available, DOI information is mandatory!! See

<http://iaescore.com/gfa/ijere.docx>

In order to cover part of the publication cost, each accepted paper is charged: USD 335. This charge is for the first 8 pages, and if any published manuscript over 8 pages will incur extra charges USD50 per page. For Indonesian authors, please refer to xe.com for the USD to IDR currency conversion.

The payment should be made by bank transfer (T/T):

Bank Account name (please be exact)/Beneficiary: LINA HANDAYANI
Bank Name: CIMB NIAGA Bank
Branch Office: Kusumanegara Yogyakarta
City: Yogyakarta
Country : Indonesia
Bank Account #: 760164155700
SWIFT Code: BNIAIDJAXXX

or as alternative, you can pay by using PayPal to email:

info@iaesjournal.com

IMPORTANT!!!

- You should submit your payment receipt (along with your camera-ready paper and similarity report by iThenticate/Turnitin that less than 20%) within 6 weeks to email: ijere@iaesjournal.com
- All correspondence should be addressed to the emails (support by phone is not provided).

- Due to the high demand for publication and many papers in the queue, the schedule of publication is in about 9 -12 months after the acceptance notification is issued. Certificate of Acceptance can be requested by contacting septian@iaescore.com cc ijere@iaesjournal.com
