ABSTRAKSI

Ati Hernawati Dani, 2023, 202010360311308, Universitas Muhammadiyah Malang, Fakultas Ilmu Sosial dan Ilmu Politik, Program Studi Hubungan Internasional, Strategi Amerika Serikat Melalui Indo-Pacific Economy Framework Dalam Melawan Dominasi Ekonomi China di Kawasan Asia Pasifik, Dosen Pembimbing: Havidz Ageng Prakoso, S. IP, M.A.

Dalam perekonomian internasional, Amerika Serikat merupakan satu-satunya negara dengan posisi terkuat di dunia internasional sejak kemenangannya dalam perang dingin dengan Uni Soviet, salah satunya di kawasan Asia Pasifik. Akan tetapi, sejak abad ke-20, China muncul sebagai negara dengan kekuatan ekonomi yang kuat dan mampu bersaing dengan Amerika Serikat dan berpotensi sebagai negara yang mendominasi kawasan Asia Pasifik. Salah satu upaya Amerika Serikat untuk mengimbangi pengaruh ekonomi China di Kawasan Asia Pasifik adalah dengan memperkenalkan *Indo-Pacific Economic Framework* (IPEF). Penelitian ini bertujuan untuk menganalisis bagaimana strategi Amerika Serikat dalam melawan dominasi ekonomi China melalui *Indo-Pacific Economy Framework* (IPEF) di kawasan Asia Pasifik. Penelitian ini menggunakan metode penelitian kualitatif dengan sumber yang diambil yaitu kepustakaan melalui artikel, jurnal, internet dan sumber yang berkaitan dengan penelitian ini. Dalam membantu menjawab pertanyaan penelitian, penulis menggunakan teori penelitian neoliberal institusional dan kerja sama internasional. Kerja sama IPEF merupakan kerangka kerja sama regional modern yang bertujuan untuk membangun kerjasama dan integrasi ekonomi di kawasan Asia Pasifik dengan membangun komitmen yang berstandar tinggi yang memperdalam keterlibatan ekonomi para mitra melalui empat pilar: (1) *Trade*, (2) *Supply Chains*, (3) *Clean Economy*, (4) *Fair Economy*.

ABSTRACT

Ati Hernawati Dani, 2023, 202010360311308, University of Muhammadiyah Malang, Faculty of Social and Political Science, International Relation Study Program, United States Strategy Through the Indo-Pacific Economic Framework (IPEF) in Countering China's Economic Domination in the Asia Pacific Region, Dosen Supervisor: Hafidz Ageng Prakoso, S.IP, M.A

In the international economy, the United States is the only country with the strongest position in the international world since its victory in the cold war with the Soviet Union, one of which is in the Asia Pacific region. However, since the 20th century, China has emerged as a country with a strong economic power and is able to compete with the United States and has the potential to become a country that dominates the Asia Pacific region. One of the United States' efforts to balance China's economic influence in the Asia Pacific region is by introducing the Indo-Pacific Economic Framework (IPEF). This research aims to analyze the United States' strategy in countering China's economic dominance through the Indo-Pacific Economic Framework (IPEF) in the Asia Pacific region. This research uses qualitative research methods with sources taken, namely literature through articles, journals, the internet and sources related to this research. In helping to answer the research question, the author uses neoliberal institutional research theory and international cooperation. IPEF cooperation is a modern regional cooperation framework that aims to build cooperation and economic integration in the Asia Pacific region by building high standard commitments that deepen the economic involvement of partners through four pillars: (1) Trade, (2) Supply Chains, (3) Clean Economy, (4) Fair Economy.
