The Impact of U.S. Monetary Policy on Bitcoin Price in 2022: An Analysis of Interest Rate and CPI Announcements

ABSTRACT

This research investigates the impact of U.S. monetary policy changes on Bitcoin prices in 2022, focusing specifically on Federal interest rate adjustments and Consumer Price Index (CPI) announcements, analyzed both individually and concurrently. Utilizing quantitative methods, the study employs monthly data sourced from publicly available datasets. Time series sampling and econometric models are utilized to explore the relationship between these macroeconomic variables and Bitcoin's average monthly price. The findings reveal that increases in U.S. interest rates have a significant negative effect on Bitcoin prices, supported by a t-value of -3.722 surpassing the critical value of 2.262 at a 5% significance level (p-value = 0.005). Similarly, CPI fluctuations demonstrate a negative impact on Bitcoin prices, with a t-value of -2.931 exceeding the critical value at a 5% significance level (p-value = 0.017). Moreover, the combined influence of both variables significantly affects Bitcoin prices, evidenced by an F-statistic of 76.794 surpassing the critical value of 4.10 at a 5% significance level. These results underscore the importance of U.S. monetary policy indicators in shaping Bitcoin price dynamics, providing valuable insights for investors and policymakers alike.

Keywords— U.S. interest rates, CPI, Bitcoin, monetary policy, cryptocurrency

PREFACE

Alhamdulillah, all praise and gratitude are due to Allah SWT for His abundant mercy and grace, which enabled the author to complete the final thesis titled "The Impact of U.S. Monetary Policy on Bitcoin Price in 2022: An Analysis of Interest Rate and CPI Announcements" smoothly. This thesis is one of the requirements to fulfill in obtaining a Bachelor of Management degree at Muhammadiyah University of Malang.

The author fully realizes that without the guidance and support from various parties, this final thesis would not have been completed well. Therefore, on this occasion, the author would like to express heartfelt thanks and pray that Allah rewards them with goodness, especially to:

1. Prof. Dr. H. Nazaruddin Malik, SE., M.Si., as the Rector of Muhammadiyah University of Malang.
2. Mrs. Dr. Idah Zuhroh M.M., M.Si, as the Dean of the Faculty of Economics and Business, Muhammadiyah University of Malang.
3. Mrs. Dr. Nurul Asfiah, M.M., as the Head of the Management Study Program, Faculty of Economics and Business, Muhammadiyah University of Malang.
4. Mr. Dr. R. Iqbal Robbie, S.E., M.M., as the Secretary of the Management Study Program, Faculty of Economics and Business, Muhammadiyah University of Malang.
5. Mrs. Rizky Febriani, Dr., M.M., as the First Supervising Lecturer who has taken the time and effort to guide and direct the author in the preparation of this thesis.

6. Mr. Widhiyo Sudiyono, S.T., M.BA Dr., as the Second Supervising Lecturer who has taken the time and effort to guide and direct the author in the preparation of this thesis.
7. All lecturers of the Management Study Program who cannot be mentioned one by one but have contributed significantly by imparting knowledge and educating the author throughout the study period.
8. The author's entire family, who have provided support.
9. Fellow students of the Management Study Program class of N-2020, who are also striving to obtain their degrees and cannot be mentioned one by one. Special thanks to Reza Bagus Valentino and Fajril Irfan for sharing the ups and downs during college, off-campus, data collection, and thesis work.
10. All parties involved, directly or indirectly, in the completion of this thesis.

All this invaluable help cannot be repaid individually. May Allah SWT reward them as acts of worship and may it bring great benefits to all of us. Aamiin Ya Rabbal' alamin.

The author realizes that this thesis is far from perfect. Therefore, the author welcomes constructive criticism and suggestions for future improvements.

Wassalamu 'alaikum Wr. Wb
